

Model 0366 Index Table

The Evans Midwest Model 0366 Index Table aligns laminate and core stock accurately. The fully adjustable design accepts materials up to 62" wide by 145" long, and is the ideal complement to the 0206 Pinch Roller. Adjustable table guides assure quick and correct spacing between core stock and backslash for the cove bend. An air supply of only 80 PSI is required.

- **Precise alignment of laminates with core stock**
- **Adjustable to accommodate counter tops, wall paneling and other pieces up to 62" X 142"**
- **Saves time, money and eliminates waste**
